Personal Information:

- **Name:** Derrick Kondwani Mbewe
- **Contact number:** +260772262028.
- **Email address:** kondwanimbewe111@gmail.com
- **Portfolio:** digital-profile-delta.vercel.app
- Second Year Student at Texila American University Zambia

Objective-

I classify myself to be a driven and passionate person.

- I am eager to immerse myself in cutting-edge technologies and innovative problem-solving within the fields of computer science, Cyber Security, AI and engineering.

- I aspire to contribute to the future of technology, fostering creativity, expanding my knowledge and gaining invaluable skills.

- Am committed to utilizing the experience and knowledge gained to empower and build a tech company in my home country.

Education:

- Sentinal Kabitaka School(K-4)
- Faith Christian Trust Academy (5-7)
- Don Bosco Technical Secondary School (Grade 8-9)
- Kanini Secondary School, Ndola, Zambia (Grade 10-12)
 - o Graduated: 28th October 2022
 - o Relevant Coursework: Advanced Mathematics (Additional Mathematics), Physics, Chemistry,
 - o GPA: 4.0
 - o Currently at Texila American University Zambia Studying BS.c in Artificial Intelligence.

Professional Experience:

- **Full Stack Developer Intern** | Codveda Technologies (December 2025)
 - o Developed and optimized web applications using modern full-stack development tools and best practices.
 - o Collaborated on software development tasks, enhancing application functionality and performance.
 - **Data Analyst** | God First Bakery (February 2024 – October 2024)
 - o Analyzed operational and sales data to help optimize business performance and inventory tracking.
 - o Compiled and interpreted data reports to support decision-making processes.
 - **SAT Math & English Tutor** | Zambia Institute for Sustainable Development (ZISD) (November 2023 – September 2024)
 - o Tutored students in SAT Mathematics and English, focusing on critical thinking and problem-solving strategies.
 - o Prepared learning materials, evaluated student progress, and helped improve test scores.
-

Extracurricular Activities:

1. Junior Secondary Vice President, JETS Club
 - o Led science-related projects, organized STEM events, and mentored junior members.
 2. Participant, Inter-School Olympiads (Mathematics)
 - o Represented the school in mathematics competitions.
 3. Participant, National Jets Fair
 - o Gained knowledge and experience.
 4. Participant, School Debate Team
 - o Developed public speaking and critical thinking skills.
 5. Member, Zambia Robotics
 - o Represented the country at the international First Global Robotics Challenge (Singapore 2023).
 6. Member of the Texila ZRA hackathon Team. Participated and won the 2025 ZRA hackathon Competition.
-

Skills:

- **Programming Skills:**
 - o Proficient in blocky, python, java, C, HTML, and CSS.
 - o Database knowledge (MySQL, Superbase and Firebase integration)
 - o Version control (Git)
 - o System deployment knowledge
 - o Proficient in AI workflow automation using Make.com and n8n.
 - o Experience integrating AI models and developing AI-powered automation solutions using OpenAI API, Google AI Studio, VAPI, and Google Apps Script.

- **Non-Programming Skills:**

- o Competent in Adalo and Flutterflow for app development. Familiar with typeflow and flodest for email marketing and bolt, strikingly for no code web development.

- **CAD (Computer-Aided Design):**

- o Knowledge and experience in AutoCAD, Inventor, and Fusion 360.

- **Digital Art and Animation:**

- o Proficient in Clip Studio and Photoshop as well as Canva and Capcut .

- **Video and Photography**

- **SAT math and English tutor with 2 years of experience.**

- **Cyber Security Skills:**

- Disaster Recovery**

- Understanding of backup strategies, system restoration processes, and business continuity planning to ensure minimal downtime after security incidents or system failures.

- Governance**

- Knowledge of cybersecurity policies, standards, and best practices, including how organizations align security with business objectives and regulatory requirements.

- Incident Response**

- Familiarity with identifying, analyzing, and responding to security incidents, including basic steps such as detection, containment, eradication, and recovery.

- Penetration Testing**

- Basic exposure to ethical hacking techniques, including reconnaissance, vulnerability scanning, and identifying security weaknesses using tools like Nmap and Kali Linux.

- Risk Assessment**

- Ability to identify potential security threats, evaluate vulnerabilities, and assess their impact and likelihood within a system or network.

- Risk Management**

- Understanding of how to prioritize, mitigate, and manage cybersecurity risks through appropriate controls and strategies.

- Security Controls**

- Knowledge of implementing and evaluating technical and administrative controls such as firewalls, access control mechanisms, and security policies to protect systems and data.

Awards and Honors:

- Best Overall Student Certificate (Grade 8)
- Certificate for Completing a Photo-voltaic Course
- Scholarship from KCM Mining Company
 - o Opportunity to study at Chiwala Provincial STEM Secondary School On full Scholarship by KCM.
- Certificate of Secondary School Completion
- Certificate for Completing the First Global Video Training Course

- Certificate for Competing in the First Global Robotics Challenge
 [FIRST Global Team Zambia International Participation Certificate - Singapore 2023](#)
- Certificate for completing the Cisco Networking Academy's Python 1 and 2 essentials courses:
